## RELEVANT EXPERIENCE

### Web Developer and Support

June 2020 - Present

*W3 Plus Solutions*

- Developed and maintained over 10 WordPress websites for clients using **HTML, CSS, JavaScript, and MySQL**, resulting in a **55% increase in client satisfaction**.
- Worked on multiple projects, **collaborating with colleagues** to ensure a high-quality final product, resulting in a **50% reduction in project delivery time**.
- Implemented and integrated **different third-party plugins** to enhance website functionality, resulting in a **20% increase in website traffic**.
- Showcased strong **problem-solving skills** by addressing technical challenges in a timely and efficient manner, resulting in a **15% reduction in support tickets**.
- Strong **communication skills**, able to explain technical concepts to non-technical clients, resulting in a **100% success rate in meetings**.

## PROJECTS

**Ecommerce Store** - A fully responsive modern **full stack ecommerce application** with modern design, animations, the ability to add and edit products on the go using a CMS, all advanced cart functionalities, and complete integration with Stripe.

*HTML, CSS, React.js, and Next.js*

[github.com/kumaylm/EcommerceStore](https://github.com/kumaylm/EcommerceStore)

**ShareMe (a Pinterest Clone)** - A fully responsive modern **full stack image sharing social media application** with all advanced features such as Google authentication, create/edit/delete/save images, like/comment on other people's posts, and search and filter images.

*HTML, CSS, and React.js*

[github.com/kumaylm/ShareMeApp](https://github.com/kumaylm/ShareMeApp)

**A Realtime Chat App** - A chat app where users can enter a chat room with their username and room ID, and chat with everyone present in the room in real time.

*HTML, CSS, React.js, and Node.js*

[github.com/kumaylm/RealtimeChatApp](https://github.com/kumaylm/RealtimeChatApp)

**Flight Deal Finder** - An SMS alert on flight deals, using **Sheety** to read and write data to a Google sheet, getting IATA codes using the **Kiwi Partners API**, searching for cheap flights, and sending an SMS using the **Twilio API** if the flight price is lower than in the Google sheet.

*Python*

[github.com/kumaylm/FlightDealFinder](https://github.com/kumaylm/FlightDealFinder)

**Password Manager** - A GUI web app built with **Tkinter** that generates, copies to clipboard, and stores your multiple passwords, including **error handling**, dialog boxes, and pop-up features.

*Python*
