PROJECTS

Ecommerce Store - A fully responsive modern **full stack ecommerce application** with modern design, animations, the ability to add and edit products on the go using a CMS, all advanced cart functionalities, and complete integration with Stripe.
HTML, CSS, JavaScript (React.js and Next.js)   github.com/kumaylm/EcommerceStore

ShareMe (a Pinterest Clone) - A fully responsive modern **full stack image sharing social media application** with all advanced social media features such as Google authentication, create/edit/delete/save images, like/comment on other people's posts, and search and filter images.
HTML, CSS, JavaScript (React.js)   github.com/kumaylm/ShareMeApp

A Realtime Chat App - A chat app where users can enter a chat room with their username and the room ID, and chat with everyone present in the room in real time.
HTML, CSS, JavaScript (React.js and Node.js)   github.com/kumaylm/RealtimeChatApp

My Top 10 Movies - A beautiful website that lists our top 10 films of all time. As we watch more movies, we can always update our list and keep track of which movies to recommend people.
HTML, CSS, Python (Flask and WTForms), SQLite, SQLAlchemy   github.com/kumaylm/MyTop10Movies

Password Manager - A **GUI app built with Tkinter** to generate, copy to clipboard, and store your multiple passwords, inclusive of **error handling**, dialog boxes and pop-up features.
Python   github.com/kumaylm/PasswordManager

Flight Deal Finder - An SMS alert on flight deals, using **Sheety** to read and write data to a Google sheet, getting IATA codes using the **Kiwi Partners API**, searching for cheap flights, and sending an SMS using the **Twilio API** if the flight price is lower than in the Google sheet.
Python   github.com/kumaylm/FlightDealFinder

RELEVANT EXPERIENCE

Web/App Development and Support   June 2020 - Present
W3 Plus Solutions

- Successfully developed and maintained 10+ WordPress and Shopify powered websites for businesses and charitable organizations.
- Significantly implemented custom code using **HTML, CSS, JavaScript, and PHP** to enhance client and user experience.
- Averaged **over 30 tickets solved monthly with 90% customer satisfaction**; administered daily maintenance for password resets, customer locked-out accounts, assisted registration requests, and online updates.
